Summary

Results-driven **Data Analyst** with strong skills in **data analysis, machine learning, SQL, and data visualization**. Proficient in **Python, Excel, and Power BI**. Experienced in **EDA, data cleaning, feature engineering, and predictive modeling** to support data-driven decision-making.

Technical Skills

Programming: Python (OOP, Functions, Scripting)

Data Analysis: EDA, Data Cleaning, Data Preprocessing, Statistical Analysis

Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Database: SQL (SELECT, WHERE, GROUP BY, JOINS)

Visualization: Power BI, Excel Dashboards

Tools: Jupyter Notebook, VS Code, Google Sheets

Work Experience

S&P 500 Price Prediction (Project-Based)

- Developed a **machine learning model** using Random Forest Classifier to predict stock trends
- Performed **EDA, data preprocessing, and feature engineering** on financial datasets
- Applied **technical indicators and backtesting** to evaluate model performance
- Used **Python, Pandas, NumPy, Scikit-learn, and Yahoo Finance API**

Link: www.github.com/suhani2112/SP500-stock_price_prediction

Attendance Tracker – Python (Project-Based)

- Built a **file-based attendance management system** using Python
- Implemented **CRUD operations** with input validation
- Automated record management to improve **data accuracy and efficiency**

Education

K.R. Mangalam University

Master of Computer Applications

2025 – Present

Gurugram

University of Rajasthan

Bachelor of Computer Applications

2021 – 2024

Jaipur

Accomplishments

- Demonstrated strong problem-solving and analytical skills through real-world data analysis projects
- Completed **Machine Learning with Python (Cognitive Class)** with hands-on experience in ML algorithms and data analysis
- Certified in **Microsoft Excel (Coursera)** with expertise in dashboards and advanced functions
- Participated in **Deloitte Data Analytics Job Simulation**, working on real-world datasets
- Completed **Quantitative Research Simulation (Forage)** applying analytical skills in finance
- Developed **machine learning and Python-based projects** demonstrating practical skills

Core Competencies

Data Analysis, Machine Learning, Data Visualization, SQL, Python, Power BI, Excel, EDA, Data Cleaning, Predictive Modeling, Statistical Analysis, Business Intelligence
